

Assignment - Introduce yourself and tell us why you chose this course.

My name is Amit Rawat, and I'm 24 years old. I am a native of Kotdwara, Uttarakhand. I have completed my Graduation in BTech Computer Science from Lovely Professional University, Punjab in the year 2020, with a C.G.P.A. of 6.96/10. Talking about my Professional Work Experience, I have worked as a Cloud Engineer for 6 months at Hanu Software Solutions, Noida. While working there I had been a part of the project Ensemble Health Partners as an Automation Tester and I gave my best to automate the website of the client. While working in the corporate world I came to know about Data Scientist opportunities and developed my passion for it. Then, I decided to take this Data Scientist course from Edyoda. I have been learning and enjoying my road to Data Scientist since then. Currently, I am looking for a Data Scientist role. Apart from my technical skills, I have some hobbies that are Playing Football, Watching Mixed Martial Arts and Travelling.
